

FENTON et al
Serial No. **Unknown**

A3 fixed network, and means for enabling the visitor node to record the use of the visited fixed network by the user.

A4 20. (Amended) Apparatus according to claim 18 comprising means for transmitting recorded use of the visited fixed network to the home node from the visited node for the purposes of billing.

REMARKS

Attached hereto is a marked-up version of the changes made to the claims by the current amendment. The attached page is captioned "**Version with markings to show changes made.**"

The above amendments are made to place the claims in a more traditional format.

Respectfully submitted,

NIXON & VANDERHYE P.C.

VERSION WITH MARKINGS TO SHOW CHANGES MADE

4. (Amended) A method according to claim 1 [or 3] wherein the visitor node comprises a visitor switching means and a visitor location database.
5. (Amended) A method according to [either claim 1, 2, 3, or 4] claim 1 wherein the user-selected fixed termination is assigned a temporary routing number.
6. (Amended) A method according to [any preceding claim] claim 1 further providing a further user of the home network with use of the visited fixed network, wherein a call intended for the further user is routed to the user-selected fixed termination.
7. (Amended) A method according to [any preceding claim] claim 1 wherein the visited fixed network is a public switched telephone network and including supplying a visitor node with the identity of a user-selected fixed termination comprising providing the telephone number of a terminal attached to the visited fixed network.
8. (Amended) A method according to [any preceding claim] claim 1 further comprising supplying the user with a second identification number for enabling the user to use the visited fixed network and for enabling the visitor node to record the use of the visited fixed network by the user.
10. (Amended) A method according to [either claim 8 or 9] claim 8 wherein the recorded use of the visited fixed network is supplied to the home node for the purposes of billing.
14. (Amended) Apparatus according to claim 11 [or 13] wherein the visitor node comprises a visitor switching means and a visitor location database.

15. (Amended) Apparatus according to [any of claims 11, 13 or 14] claim 11 wherein the visited fixed network is a public switched telephone network and includes means for supplying the visitor node with the identity of a user-selected fixed termination by providing the telephone number of a terminal attached to the visited fixed network.

16. (Amended) Apparatus according to claim 11[, 12, 13, 14 or 15] comprising means for assigning the user-selected fixed termination is assigned a temporary routing number.

17. (Amended) Apparatus according to [any of claims 11 to 16] claim 11 having means for providing a further user of the home network with use of the visited fixed network, comprising means for allowing calls intended for the further user is routed to the user-selected fixed termination.

18. (Amended) Apparatus according to [any of claims 11 to 17] claim 11 further comprising means for supplying the user with a second identification number for enabling the user to use the visited fixed network, and means for enabling the visitor node to record the use of the visited fixed network by the user.

20. (Amended) Apparatus according to [either claim 18 or 19] claim 18 comprising means for transmitting recorded use of the visited fixed network to the home node from the visited node for the purposes of billing.
